MEMORANDUM NO. 374

TO : [REDACTED] 25X1A9a

FROM : [REDACTED]

SUBJECT: Request for Studies

1. Strategic Branch has received a request from a local military unit for border studies of the following areas; to be used as background information:

- a. East German/- Czechoslovakia
- b. West German/- East Germany
- c. West German/- Czechoslovakia
- d. Czechoslovakia - Austria
- e. Hungary - Austria
- f. Hungary-Yugoslavia

2. We are aware that maps and overlays showing border defense information are being forwarded to ORR by USAREUR. This is not what Strategic Branch wants; rather, we want analytical reports, possibly "GR's", which show entanglements, fences, mine fields, plowed strips, alarm devices, guard posts, and pertinent topographic and vegetation information.

3. If D/GG or D/GL, (in those instances where only a special map has been produced) has reports of this type, in published form, or draft, Strategic Branch would appreciate one copy for each of the specified areas (1.a - f, above), sanitized for passing. Please send an information copy of the memorandum of transmittal to [REDACTED] D/GL. 25X1A9a

Distribution:
